FOUND@LIM: LONG ISLAND'S FOUND PHOTOGRAPHY.

Nearly every collection of photographs contains unidentified images. Original owners don't label photographs; owners forget vital information or don't record it. Sometimes museum record keeping especially in decades past – does not keep information about photographs known at the time of acquisition.

Without identities, entire albums and boxes of anonymous photographs wind up at yard sales, antiques shops, flea markets and online marketplaces.

Found@LIM is an opportunity to look at orphaned photos for which few, if any, details are known.
