

Use Alexa to Log Your Summer Reading

We're excited to announce that our online Summer Reading platform Beanstack has an Alexa Skill, which makes it even easier to keep track of the books you will read this summer! Go to kids.emmaclark.org & click on the Summer Reading Club tab. Register online by creating or using your existing Beanstack account. Then follow these simple steps to set up the skill on your Alexa-enabled device and start logging your reading:

1. Enable the skill by either saying “Alexa, enable Beanstack Tracker” or searching for “Beanstack Tracker” in the Alexa Skill Store.
2. If you enabled the skill by voice, access the skill from your Amazon Alexa App and Choose to Link Your Account.
3. Search for “Emma” or “Emma S. Clark Memorial Library” when prompted.
4. Click ‘Log In To Your Account.’
5. When you receive the message "Beanstack Tracker has been successfully linked" you may close the app or website.
6. When using Alexa, say “Alexa, open Beanstack Tracker” and follow the prompts to log books for Summer Reading! Because Beanstack allows families to track multiple readers in a single account, your whole family can use Alexa to log their books.
7. When logging for multiple readers you’re going to have to re-open Beanstack Tracker for each reader.

If your family has multiple Alexa devices at home, you can use the same Beanstack account across devices or connect each device to a different account. The Beanstack Tracker for Alexa only logs reading of titles.

Beanstack also offers a “Beanstack Tracker” app, available in the Apple App store or Google Play store.
